

California OES Weather Threat Briefing

Friday, May 17, 2019
9:00 AM PDT

Day 1: Strong winds through mid morning today across interior southern CA may blow down small trees, cause power outages and impact high-profile vehicles.

National Weather Service
*Western Region Headquarters
Regional Operations Center
Salt Lake City, UT*

WEATHER KEY POINTS

05/17/19 - 05/23/19

Friday-Sunday

- Gusty winds will continue across portions of Southern Region
- Friday will be relative break in precipitation, though some isolated to scattered showers are still possible
- Another storm system will move into the Coastal and Inland Regions Saturday, with cooler weather and showery conditions spreading south and lingering into Sunday
 - Additional thunderstorms will be possible across mainly the Inland Region Saturday into Sunday

Monday-Thursday

- The weather will remain active into the beginning of next week, especially across the northern half of the state, with additional storm systems moving across the area
